Produkt-Information

Titel: E-Journal-Flatrate für IDA members

Kurzttext:

The E-Journal Flatrate allow you to access the e-papers of the English-language subscription journals by Quintessence Publishing, and includes the following journals:

Quintessence International

QI has a new contemporary design but continues its time-honored tradition of serving the needs of the general practitioner with clinically relevant articles that are scientifically based. Dr Eli Eliav and his editorial board are dedicated to practitioners worldwide through the presentation of high-level research, useful clinical procedures, and educational short case reports and clinical notes. Rigorous but timely manuscript review is the first order of business in their quest to publish a high-quality selection of articles in the multiple specialties and disciplines that encompass dentistry.

Publication frequency: monthly (10 issues per year)

Editor in Chief: Eli Eliav, DMD, PhD

International Journal of Esthetic Dentistry

Boasting an editorial board that unites the world's most talented master clinicians, The International Journal of Esthetic Dentistry seeks to advance the state of the art in the practices of esthetic dentistry. Each issue features articles on the latest techniques, materials, and technology, allowing readers to obtain the knowledge and skills required to achieve the outstanding esthetic results that more and more patients are demanding. Photos of breathtaking quality grace the pages of this quarterly journal.

Official publication of the European Academy of Esthetic Dentistry, the Arabian Academy of Esthetic Dentistry, the British Academy of Aesthetic Dentistry, the Hellenic Academy

of Esthetic Dentistry, the Scandinavian Academy of Esthetic Dentistry and the South African Academy of Aesthetic Dentistry

Publication frequency: quarterly

Editor in Chief: Dr. Alessandro Devigus

The Journal of Adhesive Dentistry

New materials and applications for adhesion are profoundly changing the way dentistry is delivered. Bonding techniques, which have long been restricted to the tooth hard tissues, enamel, and dentin, have obvious applications in operative and preventive dentistry, as well as in esthetic and pediatric dentistry, prosthodontics, and orthodontics. The current development of adhesive techniques for soft tissues and slow-releasing agents will expand applications to include periodontics and oral surgery. Scientifically sound, peer-reviewed articles explore the latest innovations in these emerging fields.

Official Journal of the International Academy for Adhesive Dentistry (IAAD)

Publication frequency: bimonthly

Editors in Chief: Prof. Dr. Roland Frankenberger, Prof. Dr. Bart Van Meerbeek

Journal of Aligner Orthodontics

The Journal of Aligner Orthodontics publishes clinically relevant articles in the field of Aligner Orthodontics. The journal is peer reviewed and claims to be the reference journal for Aligner Orthodontics, showing the whole potential of the field. The

journal aims to provide in-depth knowledge to orthodontists and people interested in orthodontics, from beginners to the most advanced practitioners. Articles deal with basic procedures, case reports about special situations, multidisciplinary treatment including aligner procedures, and original studies (clinical studies, studies on materials and devices, literature reviews). Auxiliary procedures such as scanning and 3D printing are also covered. In addition, the journal contains editorials, expert discussions, tips and tricks, learning from mistakes, summaries of publications from other journals, book reviews, and news from the industry.

Official publication of: The European Aligner Society (EAS), The Argentine Society of Aligner Orthodontics (SAOA), The Australasian Clear Aligner Society (ACAS), The French Society for Aligner Orthodontics (SFOPA), The German Association for Aligner Orthodontics (DGAO), The Japan Academy of Aligner Orthodontics (JAAO), The Swiss Society for Aligner Orthodontics (SSAO), The Taiwan Association of Aligner Orthodontics (TAAO)

Publication frequency: quarterly

Editor in Chief: Dr. Werner Schupp

International Journal of Oral Implantology

The International Journal of Oral Implantology prides itself on presenting evidence-based, practical insights into oral implantology and related disciplines to specialists and general practitioners alike. Under the guidance of the highly regarded editorial board, the journal encompasses systematic reviews, clinical trials and clinical studies, with a focus on randomised controlled trials of quality and substance. Full descriptions and relevant illustrations are included so that clinicians can fully understand all the procedures presented. The aim of this journal is to provide reliable clinical guidance to practitioners to help them make the best decisions possible for their patients.

Official publication of the International Congress of Oral Implantologists (ICOI), and the Portuguese Society of Implantology and Osseointegration (SOPIO).

Publication frequency: quarterly

Editor in Chief: Craig Martin Misch, DDS, MDS

International Journal of Periodontics & Restorative Dentistry

An international reputation for high-quality editorial content and unparalleled color illustrations has created a loyal following for this elegantly produced journal. Encompassing the relationship between a healthy periodontium and precise restorations, as well as integrating implants with comprehensive treatment planning, this unique journal contains information that can be directly applied to your daily practice.

Official Journal of the Academy of Osseointegration

Publication frequency: bimonthly

Editors in Chief: Myron Nevins, DDS, Marc L. Nevins, DMD, MMSc

The International Journal of Oral & Maxillofacial Implants

The International Journal of Oral & Maxillofacial Implants continues its tradition of publishing timely, original articles on implant-related research and patient care. Internationally recognized for its high editorial and scientific standards, JOMI presents pioneering research, seminal studies, emerging technology, position papers, and consensus reports, as well as the many clinical and therapeutic innovations that result from these efforts. The editorial board is composed of recognized opinion leaders in their respective areas of expertise and reflects the international reach of the journal. Under their leadership, JOMI maintains its sound scientific integrity while expanding its influence within the field of implant dentistry.

Official Journal of the Academy of Osseointegration

Publication frequency: bimonthly

Editor in Chief: Steven E. Eckert

The International Journal of Prosthodontics

Prosthodontics demands a clinical research emphasis on patient- and dentist-mediated concerns in the management of oral rehabilitation needs. It is about making and implementing the best clinical decisions to enhance patients' quality of life via applied biologic architecture—a role that far exceeds that of traditional prosthetic dentistry, with its emphasis on materials and techniques. The International Journal of Prosthodontics is dedicated to exploring and developing this conceptual shift in the role of today's prosthodontist, clinician, and educator alike. The editorial board is composed of a distinguished team of leading international scholars.

Official Journal of the European Association for Osseointegration (EAO), the International College of Prosthodontists (ICP), the German Society of Prosthodontics and Dental Materials Science (DGPro), and the Italian Academy of Prosthetic Dentistry (AIOP)

Publication frequency: bimonthly

Editor in Chief: Prof. Dr. Irena Sailer

International Journal of Computerized Dentistry

This journal explores the myriad innovations in the emerging field of computerized dentistry and how to integrate them into clinical practice. The bulk of the journal is devoted to the science of computer-assisted dentistry, with research articles and clinical reports on all aspects of computer-based diagnostic and therapeutic applications, with special emphasis placed on CAD/CAM and image-processing systems. Articles also address the use of computer-based communication to support patient care, assess the quality of care, and enhance clinical decision making. The journal is presented in a bilingual format, with each issue offering three types of articles: science-based, application-based, and national society reports.

Official Publication of the International Society of Computerized Dentistry (ISCD)

Publication frequency: quarterly

Editor in Chief: Prof. Dr. Florian Beuer

Journal of Oral & Facial Pain and Headache

Founded upon sound scientific principles, this journal—with a new name reflecting its broadened scope—continues to make important contributions that strongly influence the work of dental and medical professionals involved in treating oral and facial pain, including TMDs, and headache. In addition to providing timely scientific research and clinical articles, the journal presents diagnostic techniques and treatment therapies for oral and facial pain, headache, mandibular dysfunction, and occlusion, and covers pharmacology, physical therapy, surgery, and other pain-management methods.

Official Journal of the American Academy of Orofacial Pain, the European Academy of Craniomandibular Disorders, and the Australian, Asian, and Ibero-Latin Academies of Craniomandibular Disorders

Publication frequency: quarterly

Editor in Chief: Rafael Benoliel, BDS

Chinese Journal of Dental Research

The Chinese Journal of Dental Research is a peer-reviewed general dental journal in English sponsored by the Chinese Stomatological Association. The journal publishes original articles, short communications, invited reviews, and case reports.

Official Journal of the Chinese Stomatological Association

Publication frequency: quarterly
