Farewell symposium Christoph Hämmerle Saturday, January 22, 2022

**Rekonstruktive Zahnmedizin:
Wo stehen wir, wo gehen wir hin?**

Universität Zürich-Irchel

**Contemporary prosthodontics:
Where do we stand, where are we heading?**

University Zürich-Irchel

Willkommen

Mit grosser Freude laden wir Sie zu diesem speziellen Fortbildungsanlass in Zürich ein. Nach mehr als 20 Jahren als Direktor der Klinik für Rekonstruktive Zahnmedizin tritt Prof. Christoph Hämmerle von dieser Funktion zurück. Während dieser Zeit haben die Fachgebiete zahnärztliche Prothetik, orale Implantologie und dentale Biomaterialien beträchtlichen Wandel durchlaufen. Gleichzeitig hat der Wandel an Geschwindigkeit zugenommen und es darf erwartet werden, dass diese Dynamik auch in die Zukunft weiter getragen wird. Das Symposium wird Ihnen zu dieser Thematik praxisrelevante und spannende Inhalte vermitteln.

International renommierte Referenten und Wegbegleiter von Christoph Hämmerle verschiedener Fachgebiete werden diese faszinierende Wandlung darstellen und ihre Einschätzungen zu aktuellen und künftigen klinischen Herausforderungen in der Rekonstruktiven Zahnmedizin darlegen.

Die zeitlich gut bemessenen Pausen sollen Ihnen Gelegenheit zum kollegialen Austausch bezüglich der stetigen Veränderungen in unserem Fachgebiet geben.

Wir würden uns freuen, Sie an diesem interessanten Fortbildungstag begrüßen zu dürfen.

Welcome

It is with great pleasure that we invite you to a very special continuing education symposium in Zurich. After more than 20 years as chairman of the Clinic of Reconstructive Dentistry, Prof. Christoph Hämmerle will retire from this function. During these years, the disciplines of reconstructive dentistry, oral implantology and dental material sciences have undergone important evolutions and changes. At the same time, the dynamic of these changes have continuously been increasing and it may be expected that this aspect will keep playing an important role in the future of our profession. The planned symposium will provide exciting insights and clinically relevant information in these dental specialties.

A group of internationally renowned speakers and long-time colleagues of Christoph Hämmerle from different clinical backgrounds will shed light on these fascinating changes and provide their assessments of the current and the future clinical challenges in the field of reconstructive dentistry.

There will be ample time during the breaks for professional interactions and discussions regarding these exciting new opportunities in dental medicine.

We would be happy to welcome you to this interesting continuing education event.

Programm | Program

Treatment planning in prosthetic dentistry		
8.30	Registration	
9.00	Opening of Symposium	Beatrice Beck Schimmer Thomas Attin
9.10	Introduction to the program	Christoph Hämmerle
9.20	Treatment strategy in fixed prosthodontics	Markus Hürzeler
9.45	Treatment strategy in removable prosthodontics	Lyndon Cooper
10.00	Coffee break	
10.50	Material selection for reconstructions in the esthetic zone	Irena Sailer
11.15	Material selection for posterior reconstructions	Stefano Gracis
11.40	Panel discussion	Daniel Thoma
12.00	Lunch break	
Regeneration of bone and soft tissue in prosthetic dentistry		
13.10	The present role of GBR for patient care and future perspectives	Christer Dahlin
13.35	Platelet rich fibrin (PRF) in oral tissue regeneration	Marc Quirynen
14.00	Clinical challenges in the treatment of periodontal and peri-implant soft tissues	Rino Burkhardt
14.25	Panel discussion	Ronald Jung
14.45	Coffee break	
The challenge of peri-implantitis in prosthetic dentistry		
15.25	Prevalence of peri-implantitis – current status and future perspectives	Tord Berglundh
15.50	Treatment of peri-implantitis: a major clinical challenge	Lisa Heitz-Mayfield
16.15	Panel discussion	Nadja Nänni
16.30	Introduction of Speakers	Mutlu Özcan
16.40	Next generation prosthodontics – data-driven, value-based and personalized	Christian Stohler
17.05	A glance at 20 years of prosthetic dentistry	Christoph Hämmerle
17.30	End of Symposium
