Book information

Editor: Filippi, Andreas / Saccardin, Fabio / Kühl, Sebastian

Title: Fit für den zahnärztlichen Notfalldienst

Short text:

The actual situation in the emergency dental service is often somewhat different from that of everyday dental practice. Especially in the evening or on weekends, there is usually a limited practice staff, which can reduce the possible range of therapies available.

This book deals with many details that only or especially concern the emergency dental service as well as with all common and some rarer diagnoses. However, it also deals with the various personalities of patients encountered in the process.

The book is concisely written, richly illustrated, and enriched with videos that can be accessed via QR codes. It can therefore quickly provide significantly more confidence to those involved in the emergency dental service. Due to its concept, it is also an excellent reference book in case of possible uncertainties that may arise.
