Book information

Authors: Russell J. Stratton / Frank J. Wiebelt

Title: An Atlas of Removable Partial Denture Design

Short text:

Part I covers basic principles and rationale of design and gives sound rules for rest placement and clasp selection. Part II describes and illustrates designs for 250 of the most common partially edentulous arches. A standard design is presented and possible variations are discussed. An excellent conduit for dentist-technician communication.

Contents

Part One: Design Concepts
