Book information

Editor: Wismeijer, Daniel / Buser, Daniel / Chen, Stephen

Title: Biological and Hardware Complications in Implant Dentistry

Series: ITI Treatment Guide Series

Short text:

Volume 8 of the ITI Treatment Guide provides clinicians with the latest evidence-based information on the origins and treatment of biological as well as hardware complications. This analysis of the current evidence is based in part on the proceedings of the 4th ITI Consensus Conference held in Stuttgart in 2008 and of the 5th Consensus Conference held in Bern in 2013, as well as on a review of the current literature. Sixteen step-by-step clinical cases presented by experienced clinicians from all over the world illustrate the diagnosis and treatment of complications.

Contents

Chapter 01. Introduction

Chapter 02. Literatur Review

Chapter 03. Etiology and Risk Factors: Biological Complications

Chapter 04. Etiology and Origin of Hardware Complications

Chapter 05. Management of Biological Complications
